Introduction

MICROLOG is an index and document delivery system providing access to current Canadian report literature of reference value from federal, provincial, and municipal government and institutional sources.

The MICROLOG Index is a monthly publication providing citations to all reports located by our editorial staff.

The Document Delivery service supplies most of these documents to subscribers on either microfiche or paper. Titles available on fiche are indicated in the Index by a MICROLOG number. Xerographic paper copy is available unless otherwise noted.

PUBLICATIONS INCLUDED

MICROLOG includes Canadian federal, provincial and local government publications. Also included are publications of selected non-government research institutions, professional associations and special interest groups.

The primary criterion for inclusion is reference value; therefore research papers and studies are cited, while news releases and general information pieces are not. Annual reports, statistical reviews and financial statements are the only serials appearing in the Index.

USING THE MICROLOG INDEX

The MICROLOG index is divided into four parts as listed below. The Index is bilingual.

1. PERSONAL AND CORPORATE NAMES

This section lists all publications by individual and corporate author, by publisher and by series. A document may appear several times in this section, but the chief point of access is indicated by a solid dot.

2. TITLES AND SERIES TITLES

For additional points of access, all documents are listed by title and by series title. A complete bibliographic description will found under the personal or corporate name indicated in parentheses.

3. SUBJECT INDEX

All documents in section 1 are analysed here. Documents are listed by title under appropriate subject headings. Authorship is noted in parentheses.

4. MICROFICHE COLLECTIONS

Documents from MICROLOG are available on microfiche through various subscription plans ranging from the complete collection to subsets by level of government, geographic area or subject. The subject collections are listed on the microfiche entitled "Microfiche collections / Collections de microfiche" which accompany each subscription.

MICROLOG est un index et un système de livraison de documents donnant accès aux rapports canadiens courants, provenant des sources gouvernementales et institutionnelles, et ayant une valeur en tant que référence.

L'index MICROLOG est une publication mensuelle mentionnant tous les rapports trouvés par notre personnel de rédaction.

Le service de livraison de documents fournit aux abonnés un grand nombre de ces documents sur microfiche et sur papier. Les titres qui sont disponibles sur microfiche sont indiqués dans l'index grâce à un numéro d'entrée de document. Une copie xérogaphique sur papier est disponible sauf s'il est autrement indiqué.

PUBLICATIONS TRAITEES

MICROLOG inclut les publications du gouvernement fédéral Canadien, des gouvernements provinciaux et des administrations municipales. Il traite également les publications sélectionnées des institutions de recherche non-gouvernementales, des associations professionnelles et des groupes d'intérêt particulier.

Le critère principal de l'inclusion est la valeur en tant que référence; ainsi, les articles et les études de recherche y figurent, tandis que les communiqués et la documentation d'intérêt général n'y figurent pas. Les rapports annuels, les périodiques de statistiques et les états financiers sont les seules publications périodiques qui figurent dans l'index.

UTILISATION DE L'INDEX MICROLOG

L'index MICROLOG se divise en quatre parties. L'index est bilingue.

1. NOMS DE SOCIETES ET DE PERSONNES

Cette section énumère toutes les publications par auteur particulier et par collectivité-auteur, par éditeur et par série. Bien qu'un document figure plusieurs fois dans cette section, le point d'accès principal est précédé d'un point noir.

2. TITRES ET TITRES DE COLLECTION

Tous les documents sont aussi classés par titre et par titre de série, en vous fournissant des points d'accès supplémentaires. Une description bibliographique complète pour chaque titre se trouve dans l'Index des noms. Le point d'accès principal, trouvé dans l'Index des noms, est indiqué entre parenthèses.

3. INDEX DES MATIERES

Cette section contient l'analyse de tous les documents trouvés dans l'Index des noms. Les documents se classent par titre selon les vedettes-matière convenables. L'auteur est indiqué entre parenthèses pour vous orienter facilement vers l'Index des noms.

4. COLLECTIONS DE MICROFICHE

Les documents de MICROLOG sont disponibles sur microfiche, et ceci, selon de divers programmes d'abonnement, de l'abonnement à la collection complète aux abonnements partiels par gouvernement, par région géographique et par matière. Les collections sur microfiche sont comprises sur la microfiche intitulée "Microfiche collections / Collections de microfiche" qui fait partie de chaque abonnement.

All microfilmed documents in this Index are available by individual order.
